

Norwegian energy storage solar container lithium battery manufacturer

Overview

Nordic Batteries manufactures its eENERGY high-energy battery modules and ePOWER high-power battery modules in Norway using battery cells from Norwegian manufacturers and its own ground-breaking technology for automated assembly. Why is Norway a leader in battery manufacturing?

As a pioneer in the clean energy sector, Norway has also shown strength in battery manufacturing. As the global demand for sustainable energy solutions grows, Norwegian battery manufacturers are at the forefront of this change.

Does Norway have a battery market?

Today Norway has not one, but two huge battery markets. “There are two market drivers for batteries: EVs and stationary energy storage. Energy storage is coming on strong now. It’s the key to turning intermittent wind and solar into a stable energy source,” explains Pål Runde, Head of Battery Norway.

Are Norwegian battery manufacturers leading the Green Revolution?

In summary, Norwegian battery manufacturers are leading the green revolution in the global battery industry, and through technological innovation and sustainable production strategies, these companies are not only achieving significant success within Norway, but are also gaining a strong foothold in the international market.

Who is Nordic batteries?

Nordic Batteries is a company that assemble and custom lithium battery and energy storage solutions. With market and technical expertise, it provides solutions that drive the green transition in key industries such as marine and demanding industrial applications.
