

# Oceania Energy Storage Base Station Project Bidding

## Overview

---

Which solar-plus-storage projects have been successful in Victoria?

Victoria saw several successful solar-plus-storage projects alongside the West Mokoan project. These include two from Elgin Energy and one more from Gentari. Gentari's 64MW Barnawartha Solar and Energy Storage project features a 138.8MWh BESS.

Are co-located battery energy storage systems a renewables-plus-storage project?

The first Capacity Investment Scheme (CIS) tender round in Australia successfully awarded 3.5GWh of co-located battery energy storage systems (BESS) as renewables-plus-storage projects. This was spread across 2.75GW of solar PV and 3.55GW of wind being successful in the tender round. Several of these projects feature a co-located BESS.

Which solar projects have been successful in Victoria?

In Victoria, developers European Energy Australia, Gentari, Risen, Lightsource bp and Elgin Energy all saw success with their respective projects. The largest of these successful solar PV bids in the tender was Lightsource bp's 300MW West Mokoan solar-plus-storage project.

Which battery energy storage projects are winning bids?

The winning bids include several battery energy storage systems (BESS) exceeding 500MWh in capacity, with at least two projects reaching the 1GWh threshold. The government has released the complete list of 16 successful projects (below). The projects range from 100MW to 450MW, with storage durations between 2 and 4 hours.
