What is an off-grid solar inverter in Gauteng?

Off-grid solar inverters in Gauteng are best suited for people who want to be completely off the Eskom grid and be self-efficient, or for people who do not have access to Eskom's electricity grid. A fully installed off-grid solar system in Gauteng can be pricey but, it can save large amount of money in the long term.

What are the different types of off-grid inverters?

The off-grid inverter itself is also divided into several types based on its waveform, which are pure sine wave and modified sine wave, as well as various capacity variations. The on-grid inverter is divided into several variations ranging from microinverters, single-phase inverters, three-phase inverters, and solar power inverters.
