

Off-grid solar-powered containerized base stations

Overview

What is a mobile power station?

The MOBIPOWER is the silent solution for your remote power needs at construction job sites, off-grid camps, or other applications. Whereas, diesel generators require with fuel and are noisy, this mobile power station uses solar energy with no noise pollution.

Where can a portable power container be used?

The MOBIPOWER portable power container can be used virtually anywhere on the planet and will produce and store all the power you will need.

Where is harvested energy stored?

Harvested energy is stored in Lithium LiFePO₄ battery banks with it's own programmed BMS (Battery Management System).
