

Outdoor assembled solar panel price

Overview

As of 2025, the average cost of residential solar panels in the U.S. is between \$15,000 and \$25,000 before incentives. What is a solar panel kit?

Our solar panel kits for home are easy for you or a contractor to install. Each solar panel kit comes with solar panels, grid-tie inverters and mounting hardware and is customized to your energy needs and home's unique specifications. Take our quick questionnaire to create a custom solar panel kit based on your energy needs.

How do I Choose an affordable solar panel kit?

When selecting an affordable solar panel kit, ease of installation should be a top priority because it can save you time, effort, and potential frustration. Look for kits with pre-drilled holes and included mounting hardware —these features simplify setup and reduce the need for additional tools.

What's included in a complete solar panel kit?

All backed by free lifetime customer support when you source a complete solar panel kit from Shop Solar -- get everything you need to go solar delivered straight to your door! All solar kits include all of the cables, connectors, adapters, solar panels, needed to get up and running with quiet, free reliable solar power!.

How much do solar panels cost?

As of 2025, the average cost of residential solar panels in the U.S. is between \$15,000 and \$25,000 before incentives. This typically translates to about \$2.50 to \$3.50 per watt of installed capacity (more on price per watt below). The total price depends on your system size, location, roof type, and installer.
