

Papua New Guinea wind and solar energy storage power station

Overview

Which Papua New Guinea provinces have solar panels?

Explore Our Solar Energy Projects. TAG Energy has installed solar systems in most of Papua New Guinea's provinces and districts, specifically the Southern Highlands Province, Western Highlands Province, Central Province, East New Britain, Autonomous Region of Bougainville, Samarai Murua District, Popondetta, and the National Capital District.

What will PNG Power do for Papua New Guinea?

PNG Power's Managing Director Flagon Bekker has outlined the state-owned utility's plans to improve the stability and reliability of power supply in Papua New Guinea during a special Business Advantage PNG briefing. He elaborated on what will be the largest ever investment in PNG infrastructure - the nation-building Ramu 2 hydropower project.

Is there wind power in PNG?

A recent study by the International Finance Corporation highlighted the enormous potential for wind power in PNG. There are multiple locations in and around Port Moresby and coastal villages of PNG with wind speeds over 10 meters-per-second.

How many people in PNG have electricity?

In the early 2000s, less than 10 percent of PNG's population had access to electricity. In recent years, the PNG government announced an ambitious target to accelerate progress - 70 percent of its people will have access to reliable electricity by 2030.

Papua New Guinea wind and solar energy storage power station
