

# Paramaribo Silencer Generator Container

## Overview

---

What is gencircle supply container type generator set?

Gencircle supply container type generator set is design in accordance with ISO/TC104 standard size, rational construction, to make sure the generator set will not be damaged due to under high pressure in transport, and is suitable for ship transportation. We can supply the 20' container, 40' container, and widen or heighten container type.

How to choose a silencer for a generator?

Depending on needs, the linings of exhaust silencers for generator sets are with a mineral fiber filling. Some silencers may have an insertion loss  $D_i$  that can reach 50 dB as a standard with respect to a noise spectrum with low frequencies (a higher performance can be obtained by the means of special constructions).

Does dingbo provide a container generator without soundproof function?

Dingbo provides standard container generator without soundproof function and container silent generator set. The feature as below: 1. Design and manufacture as per the international standard container, i.e.: 20 feet for 1000KVA or less and 40 feet for 1250KVA or above. 2.

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300–3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.
