

# Park lighting solar lights

## Overview

---

What are solar powered park lights?

Solar powered lights are a natural fit for public park lighting, outdoor playground lighting, resorts, and any place where the environment needs to be preserved. Greenshine modern solar LED park lights provide simple yet charming designs for areas where the aesthetic of the lights has to be taken into account.

What type of LED lights do you use for solar park lighting?

Our solar park light fixtures use CREE LEDs to provide a wide range of lighting intensity and distribution pattern to fit a myriad of pathway sizes and shapes. We provide various fixture styles for your solar powered park lighting. An architecturally pleasing LED light fixture with a round form and dome-shaped top.

What is led park lighting?

LED park lighting can also be used to draw tourists, such as in the case of beautiful LED art installations like the sculpture in Phoenix's Civic Space Park. LED is the answer to modern lighting challenges and improves upon its predecessors as any good technological advance should.

What are solar LED parking lot lighting fixtures?

Solar LED parking lot lighting fixtures, as offered by GREENSHINE NEW ENERGY, use CREE LEDs to provide a wide range of lighting intensity and distribution pattern. They are suitable for any shape or size of parking lot. We provide various fixture styles for your solar parking lot lighting – from cobra head, dome-shaped top, to decorative style fixtures to enhance pedestrian safety and visibility.
