

Philippines Energy Storage Project

Overview

The Citicore Renewable Energy Corporation (CREC) has commissioned the Batangas 1 project in the Philippines, the country's first to combine agrivoltaics (agriPV) with a battery energy storage system (BESS). Where in the Philippines will a solar power plant be located?

The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery energy storage system (BESS).

What is the impact of a solar power project in the Philippines?

The project has strong sustainability credentials, notably because of its impact in decarbonising the Philippines' energy system (SDG7), but also by generating power to support economic development (SDG8), creating more than 10,000 new jobs (SDG8), and facilitating local development (SDGs3+4).

Does Aboitiz Power have a hybrid energy storage system in Cebu?

Aboitiz Power Corporation, one of the Philippines' major utilities, has launched a project that reflects this shift toward hybrid infrastructure. The company is constructing a 30-megawatt hybrid Battery Energy Storage System (BESS) in Cebu, in collaboration with East Asia Utilities Corporation.

How is Bess transforming the Philippine energy industry?

With the commercial operations of approximately 1,000 MW of BESS facilities across 32 locations in the Philippines, we are now ushering in a new era for the Philippine energy industry through significant improvements in grid reliability and the integration of more renewable power sources to the country's diverse energy mix.

Philippines Energy Storage Project

Actis invests in world's largest integrated renewables and energy

Sep 6, 2024 · The project, which is strategically located on the Philippines' main island of Luzon, about 100km from Manila, will combine 3.5GWp of solar PV capacity with 4.5GWh of battery ...

[Philippines' Lopez Group puts 40MW BESS at ...](#)

Oct 5, 2023 · Fluence has delivered nearly 600MW of BESS in the Philippines to date, including this project for SMC Global Power. Image: ...

[Fluence's first Philippines project in 470MW](#)

Jan 27, 2022 · In the Philippines, Fluence has brought into commercial operation the first project in an order totalling nearly half a gigawatt, for ...

[Philippines president breaks ground at ...](#)

Nov 22, 2024 · Philippines president Ferdinand Marcos Jr visited the world's largest combined solar PV and battery storage plant as

construction began.

[DOE: Battery Energy Storage Systems are gaining ...](#)

Sep 11, 2024 · The Department of Energy (DOE) said that the Philippines is exploring innovative solutions to optimize renewable energy integration and reduce costs, with Battery Energy ...

[Philippines commissions country's first agriPV ...](#)

Sep 16, 2025 · The Philippines has commissioned the Batangas 1 project, the country's first to combine agriPV with a battery energy storage system ...

DNV, SN Aboitiz Power Group, battery energy storage, BESS, ...

May 31, 2024 · DNV, a global provider of classification, technical assurance, and advisory services, has successfully supported SN Aboitiz Power Group in the development of a ...
