

Photovoltaic Energy Storage Container Seismic Resistance Tender and Procurement 2025

Overview

What is the largest energy storage procurement in China's history?

The tender marks the largest energy storage procurement in China's history. In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids were opened on December 4.

How will powerchina select a qualified supplier for energy storage system equipment?

According to the previously announced plan by PowerChina, this tender aims to select qualified suppliers for energy storage system equipment for 2025-2026. After the selection, a framework agreement will be signed.

Why do companies bid for energy storage tenders?

Bidding for energy storage tenders is extremely lucrative for companies of all sizes. Tendering authorities and private companies release thousands of contracts worth millions for procurement of energy storage. Global Tenders stands out as the largest platform dedicated to tenders and government contracts.

What is powerchina's storage initiative?

This storage initiative is part of PowerChina's broader equipment procurement plan announced on November 13, which also includes 51 GW of solar modules, 51 GW of inverters, 25 GW of wind turbines, and 15,240 prefabricated 35kV substations.
