

Planning of energy storage power station in western Mumbai India

Overview

Will Tata Power install a 100 MW battery energy storage system in Mumbai?

Mumbai, 7th April, 2025 – Tata Power, India’s largest integrated power company and a trusted electricity provider to approx. 8 lakh residential and commercial consumers, has received approval from the Maharashtra Electricity Regulatory Commission (MERC) to install a 100 MW Battery Energy Storage System (BESS) in Mumbai over the next two years.

Where will Tata Power install a 100 MW power system?

The entire 100 MW system will be installed across ten strategically located sites, especially near load centres across Mumbai Distribution, centrally monitored and controlled from Tata Power’s Power System Control Center.

Why is energy storage important in India?

Energy storage helps maintain grid reliability Existing and under-construction thermal power plants combined with hydropower, nuclear, and energy storage capacity enable India to meet electricity demand dependably—in every hour of the year in each state—with 456 GW of installed RE capacity in 2030 and 524 GW in 2032 (excluding large hydro).

How will Tata Power's Bess deployment fulfil energy storage obligations?

Additionally, Tata Power’s BESS deployment will also fulfil energy storage Obligations. The entire 100 MW system will be installed across 10 strategically located sites, especially near load centres across Mumbai Distribution, centrally monitored and controlled from Tata Power’s Power System Control Center (PSCC).
