

Poland makes double-glass components

Overview

Who is BA glass Poland?

BA Glass Poland Sp. z o.o. was established as a result of the acquisition in 2012 of the Warta Glass group. Warta Glass group included 2 Polish glassworks. The first one is located in Sieraków (Greater Poland Voivodeship) and specializes in the production of super flint glass jars and bottles.

What factors affect the glass industry in Poland?

When exploring the glass industry in Poland, several key considerations come into play. The regulatory environment is crucial, as Poland adheres to European Union standards, which influence product quality, safety, and environmental practices.

How much glass does Poland produce a year?

The domestic manufacturing industry produce approximately 1.8 million tonnes of glass packaging annually. Poland ranks second in the EU countries. Recent years have been a difficult period for the economy. The climate crisis has affected almost all of its branches.

What is the percentage distribution of glass sub-sectors?

The percentage distribution of the individual sub-sectors is as follows: 60.4% - container glass (glass jars and bottles); 29.2% - flat glass; 5.3% - glass fibers (reinforcement and insulation); 3.2% - tableware; 2.1% - specialized glass 1. The domestic manufacturing industry produce approximately 1.8 million tonnes of glass packaging annually.
