

Polish liquid cooling energy storage company

Overview

What is Linyang energy storage?

On September 9, Linyang Energy Storage Poland formally entered into an agreement with Mosty Group for the development of a 275MWh energy storage project. The agreement was signed at an official ceremony in Warsaw and marks a major milestone in advancing Poland's renewable energy sector.

Which company is a beneficiary of the energy transformation in Poland?

The company is a beneficiary of the current and the planned energy transformation in Poland by 2050. ONDE holds an over 50% share in the wind farm construction market and a 10% share in construction of photovoltaic farms in Poland.

What is Jinko power doing in Poland?

In Poland, Jinko Power is advancing renewable energy and energy storage projects. The company boasts a pipeline of approximately 350 MW and successfully secured two projects in the 2023 capacity market auction.

How does Axpo support energy transition in Poland?

While supporting energy transition in Poland, the Company also develops energy storage facilities and expands its offer with large-scale photovoltaic projects. Axpo is cooperating with investors, customers and landowners to build its own generation sources and storage facilities in Poland by 2030.
