

Portable case with power supply

Overview

What is a mini tower PC case?

Usually designed for miniITX or mATX motherboards, mini tower computer cases have all the space you need for a small powerful PC build. They are also known as (SFF) small form factors and allow decent performance for the size and hardware. The more you invest in hardware the better performance you can expect from mini desktop PC cases.

What is the best portable case for console killer builds?

We also we believe the NZXT H1 Version 2 is the best portable case for console killer builds. You can name whatever you want, but the Lian Li Q58 and HYTE Revolt 3 share the same DNA and can be considered next-generation Xbox alternatives for desktop gamers.

What is the smallest MaTx PC case?

Overall, the Cooler Master NR200 is our favorite small form factor (SFF) PC case, but it is too small for micro ATX boards, for which we recommend checking out our list of the best smallest MATX PC cases. Motherboard: Mini ITX, | Radiator Support: Up to 140mm (included) | Gross Weight: 7.6 kg |.

Do you cover accidental damage to your portable products?

Accidents Happen. That's why for your portable products we cover accidental damage from handling such as drops, spills and cracked screens. We also cover electrical and mechanical malfunctions, power surges, and wear and tear.
