

Portugal s first energy storage power station put into operation in Porto

Overview

What does Eco Wave Energy say about the Portugal project?

Eco Wave Energy said about the so-titled Portugal Project: “We believe this will be the first commercial-scale wave energy project in the world and therefore, a significant step towards wave energy commercialization”. Despite the scale, this isn’t the company’s first or largest project.

What's happening in Porto?

The Porto site will feature a 1-megawatt wave energy station and a wave energy museum and education center. Israeli company Eco Wave Power is preparing to launch its first megawatt-scale installation. This will mark a major advancement in wave energy technology.

What is Eco Wave power Portugal?

Source: Eco Wave Power Portugal aims to generate 85% of its electricity from renewable sources by 2030 , and this initiative is a key contribution to that goal. The project will reduce the port’s carbon footprint , create jobs and consolidate Portugal’s position as a leader in clean energy .

Where is Eco Wave power launching its first megawatt-scale project?

The company has also secured significant deals worldwide, including a major 77-MW wave energy station project in Turkey. The spotlight is now on Porto, Portugal, where Eco Wave Power is preparing to launch its first megawatt-scale project. Although the project was announced in 2020, construction approval was only granted in March of this year.
