

# **Power tool solar container lithium battery 220v inverter**

## Overview

---

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

What is a 40800 mAh lithium polymer battery?

**HIGH CAPACITY AND COMPLETE SIZE:** 40800mAh (150Wh) lithium polymer battery, with only 1.5Kg net weight (1.9Kg include all the accessories) and size of 175\*165\*80mm. **SAFETY GUARANTEED:** Battery Management System (BMS) to improve battery utilization, prevent over-current, over-voltage and over-temperature, prolong battery life.
