

Price of Extra-Large Capacity Photovoltaic Folding Container in Democratic Republic of Congo

Overview

What is Huijue's folding solar PV container?

Huijue Group newly launched a folding photovoltaic container, the latest containerized solar power product, with dozens of folding solar panels, aimed at solar power generation, with a capacity for mobility to provide green energy all over the world. The Solar PV container is a mobile, plug-and-play solar energy solution.

What is a solar PV container?

The Solar PV container is a mobile, plug-and-play solar energy solution. It's designed to be foldable, integrated for fast deployment anywhere. Just lay the track, pull it gently, and the solar panels will be deployed. Start working efficiently, keeping up continuous conversion of solar energy to electricity.

What is a solarfold photovoltaic container?

at full power. The solarfold Photovoltaic Container is mobile for universal deployment with a light and versatile substructure. The semi-automatic electric drive unit manoeuvres the mobile photovoltaic system into its operating position rapidly and smoothly along a length of around 123 metres.

How many PV modules are in a solar container?

The innovative and mobile solar container contains 196 PV modules with a maximum nominal power rating of 130kWp, and can be extended with suitable energy storage systems. The lightweight, ecologically-friendly aluminium rail system guarantees a mobile solution with rapid availability. at full power.
