Who makes insulated double glazing glass?

Max. The company specializes in manufacturing and providing a variety of high-quality glass products, including Insulated Double Glazing Glass, which meets European standards. With a focus on innovation, the company positions itself as a leading choice for glass products in Medan, Indonesia.

Why is PV glass made in Indonesia?

As an offtaker of our PV-Glass-Grade Silica, the factory ensure a stable offtake and a secure supply chain for the silica refinery. Coupled with other raw materials like soda ash, alumina, limestone, and other coming from local sources, the resulting PV Glass contains almost 100% local content - eligible to earn the Made in Indonesia title.

Why is insulating glass important in Indonesia?

When exploring the insulating glass industry in Indonesia, several key considerations come into play. Regulations are critical, as compliance with local building codes and environmental standards is mandatory. The Indonesian government has been emphasizing energy efficiency, which drives demand for insulating glass products.
