

Quotation for Ultra-Large Capacity Mobile Energy Storage Container Project

Overview

Is CATL launching a new energy storage system?

CATL (SHE: 300750) has rolled out a new energy storage system called Tener Stack in a bid to consolidate its position in the sector. The Chinese battery giant launched the Tener Stack at the battery storage show in Munich, Germany, on May 7, calling it the world's first production-ready 9 MWh ultra-high-capacity energy storage system solution.

Is CATL Tener energy storage a Bess system?

"CATL has always been at the forefront of the energy transition," said Amanda Xu, CTO ESS & President of ESS Europe CATL. "To meet the expectation of a BESS system that has high energy density, small footprint, simpler AC-side configuration, and flexible deployment, we bring the latest CATL TENER energy storage solution.

Will a 9 MWh power plant save 20% on initial investment?

CATL calculates that this would save up to 20% on the initial project investment. "9 MWh is not the upper limit for utility-scale BESS products," Zhao said. "Higher capacities, including double-digit MWh systems, are possible and will depend on customer demand.

What is a 'two in one' container?

Transport Without Compromise In response to logistical challenges associated with transporting containers exceeding 36 tonnes, the legal threshold in many countries, CATL has developed the "two in one" design. Each half-height unit is strictly controlled under 36 tonnes, ensuring compliance with transport regulations across 99% of global markets.
