

RV solar container battery box

Overview

How secure are RV battery boxes?

With RV battery security in mind, each locking battery box was specifically engineered to prevent increasingly common battery theft and related damage to wiring from 'cut and run' thefts. Keep expensive batteries under lock and key with PowerArmor and PowerArmor Solar's secure RV battery boxes.

What is a solar battery box?

This product is perhaps more commonly called a "solar battery box" but is also referred to as a "pole mount battery box". Some battery boxes are large enough to be considered battery cabinets and are usually made from painted steel. Battery enclosures keep your batteries safe from weather and safe from theft.

What is an RV battery box?

What is it?

RV battery boxes are lightweight protective cases and trays designed to prolong the life of the camper charging system by protecting it from weather damage, outdoor elements like water, gasoline, other accidental acid spills that might leak into your engine compartment and threaten to compromise the integrity of the RV battery.

What is an RV solar battery?

An RV solar battery is an essential part of any mobile solar setup. It allows you to travel to places without any electrical power points (and these are often the best places). An RV solar battery is crucial for going on any extended road trips, so it's important to correctly size it beforehand.
