

Replace the battery cabinet model

Overview

How do I install a battery cabinet?

Conduit must be installed between each battery cabinet and the UPS or battery disconnect using conduit. Battery cabinets may be installed adjacent to the UPS or in a separate location. If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabinet.

What is a battery cabinet (IBC) system?

Battery Cabinet (IBC) systems are housed in single free-standing cabinets. Model IBC-L with a single battery voltage range is available to meet application runtime needs. Up to four cabinets may be installed to further extend battery runtimes. The cabinets match the UPS cabinet in style.

How to connect UPS CABINET & Battery Cabinet?

Wiring between the UPS and battery cabinet is to be provided by the customer. When installing external interface wiring (for example, battery breaker shunt trip) to the battery cabinet interface terminals, conduit must be installed between the battery cabinets and the UPS cabinet.

What is a battery cabinet?

A battery cabinet is a standalone configuration. The term standalone refers to battery cabinets that may be installed adjacent to the UPS or in a separate location, are wired with external customer-supplied conduit and wiring, and may use the battery cabinet breaker as the battery isolation device or a switch.
