

# **Samoa solar container battery Container Project Bidding**

## Overview

---

Which land is available for solar energy in Samoa?

For power, spaces in front near and the rear end of the thermal station is available for RE. Total land area leased from Samoa Land Corporation is 15.5 acres. Land was designated for Solar Energy. Lease Property is legally leased to EPC from Samoa La.

How does Samoa's energy system work?

Need integration of innovative distributed energy solutions across its service territory. Currently, Samoa's energy portion of the tariff sees its highest cost kWhs coming from energy supplied through its diesel resources. The Samoan Government has an established goal of 70% renewable energy generation.

Who owns ADB in Samoa?

Established in 1966, it is owned by 69 members—49 from the region. ADB has signed a transaction advisory services agreement with Samoa's Electric Power Corporation (EPC) to support the development of a solar photovoltaic and battery energy storage systems with installations planned for the country's two largest islands, Upolu and Savai'i.

What is Samoa's energy mandate?

The mandate also includes addressing critical environmental, social, and gender considerations to ensure the project's sustainability and inclusiveness. Samoa currently relies on imported fossil fuels for approximately 69% of its electricity generation, leaving the country vulnerable to volatile oil prices.
