

San Diego Solar System

Overview

How much does solar cost in San Diego?

You now only have until Dec. 31, 2025, to install a system and get the 30% solar tax credit. A typical residential solar panel installation costs \$13,747 in San Diego. However, you can finance or lease with minimal upfront costs. On average, San Diego homeowners with solar panels avoid \$108,915 in total utility costs over 25 years.

Are solar panels a good investment in San Diego?

Solar panels are worth it in San Diego, CA. Factors like the cost of electricity, incentives, climate, and the angle of your roof impact how quickly you'll break even on your investment compared to other areas in the U.S.

What is the cost of a 10 kW solar system in San Diego?

Doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system, which would cost around \$23,600 in San Diego, CA. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill.

What factors impact the worth of solar panels in San Diego?

Solar panels are worth it in most areas, including San Diego, CA. Certain factors, including the cost of electricity, incentives, climate, and the angle at which the sun hits your roof impact how quickly you break even on your investment relative to other areas around the U.S.
