## Overview

---

Who is Slovak solar?

Slovak Solar s.r.o. is a leading photovoltaic wholesaler in Slovakia, Czech Republic and Austria, with a vision to create a sustainable energy future. We started our journey in 2009 with the main idea – to provide companies specialised in the installation of solar systems with access to first-class photovoltaic products, all from one place.

How does a 10kW solar panel work?

The 10kW solar panels are engineered to maximize energy capture, providing ample power to charge the included 10kWh lithium-ion battery storage system. This high-capacity battery solution ensures reliable energy storage, allowing you to harness and store surplus solar energy for use during periods of low sunlight or at night.

Why should you choose Slovak solar?

At Slovak Solar, we believe that progress comes from constant innovation. From day one, we've been breaking new ground in Slovakia's solar energy sector. We were one of the first company in Slovakia to install Building-Integrated Photovoltaics (BIPV).

Why should you choose a 10kW Solar System?

Enjoy the freedom and security of having a robust and sustainable energy solution at your disposal. Experience the next level of energy independence with our 10kW solar system and 10kWh lithium-ion battery storage, and take a substantial stride towards a greener, more self-sufficient future.
