

# Solar BIPV Glass

## Overview

---

The Solarvolt BIPV glass system replaces traditional façade cladding materials and enhances commercial building exteriors by providing sunshading, overhead glazing, CO2-free power generation and more. What is a BIPV glass system?

Doubling as a building component to enhance sustainability and energy efficiency in commercial buildings, the Solarvolt™ BIPV glass system has been honored for delivering high performance, aesthetics and CO2-free power generation while replacing conventional building materials. Complement classic building materials — or replace them.

What is a solarvolt BIPV glass system?

**EXPLORE** The Solarvolt BIPV glass system replaces traditional façade cladding materials and enhances commercial building exteriors by providing sunshading, overhead glazing, CO2-free power generation and more.

What is a BIPV solar panel?

BIPV panels are designed solar modules that replace conventional façade coverings and are integrated in the building skin. More than just traditional covering, they deliver not only protection against the elements and aesthetics, but also renewable energy to the building.

What is building integrated photovoltaics (BIPV)?

Building Integrated Photovoltaics (BIPV) represent a significant advancement in sustainable construction, seamlessly integrating solar technology into building materials. In China, a country at the forefront of both solar technology and construction innovation, several companies are leading the way in BIPV glass manufacturing.

## Solar BIPV Glass

### Pilkington Sunplus(TM) BIPV

Pilkington Sunplus(TM) BIPV provides renewable power generating architectural glass solutions for building facades, windows, roof glazing, etc. with a high degree of transparency or full ...

### Embrace the Future with bipv solar glass Technology

BIPV solar glass provides an advantage in terms of fitting effortlessly into building designs as well as generating non-polluted power from renewable sources. With windows, facades, roofs ...

### Pilkington Sunplus(TM) BIPV

Pilkington Sunplus(TM) BIPV provides renewable power generating architectural glass solutions for building facades, windows, roof glazing, ...
