

Solar Module Industrial Park Project

Overview

What is the largest vertically integrated solar PV industrial park in Indonesia?

(Photo Credit: SEG Solar) Texas, US-based solar PV manufacturer SEG Solar has started construction of what it says will be the largest vertically integrated solar PV industrial park in Indonesia with 5 GW of annual production capacity for silicon ingots, wafers, cells and modules.

Where is SEG Indonesia solar industrial park located?

Located within Grand Batang City, in Central Java Province, the SEG Indonesia solar industrial park project will have an investment exceeding \$723.9 million (USD 500 million) and will cover over 40 hectares.
