

Solar container battery storage factory in Us

Overview

Jacksonville, FL, United States [10 September 2024] – Saft, a subsidiary of TotalEnergies, has commissioned a new line at its Jacksonville factory in Florida to produce the lithium-ion (Li-ion) battery containers that form the heart of energy storage systems (ESS). Where does Saft manufacture lithium-ion battery containers?

In concurrent news, France-headquartered Saft has commissioned a new production line at its Jacksonville, Florida facility to produce the lithium-ion battery containers for its BESS solution.

Where are solar power plants made?

Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.

Which US energy storage projects has Saft delivered?

Since delivering its first US energy storage project in Alaska in 2003, Saft has also delivered major projects such as the Myrtle and Danish Fields utility scale solar power plants in Texas, US, each exceeding 200 megawatt-hours (MWh) of storage.
