

Solar container communication station lithium ion battery stamping

Overview

What makes a reliable communication base station?

The solution adopts new energy (wind and diesel energy storage) technology to provide a reliable guarantee for the stable operation of communication base stations.

What makes our battery lid assembly capability unique?

The beauty of our battery lid assembly capability is that we use superior proprietary automation systems that are fully customizable. We're in the lithium-ion battery cell business precisely because we've been at the forefront of developing innovative solutions for demanding, fast-expanding global industries for the past 35+ years.

How does intriplex work with lithium-ion cell producers?

IntriPlex always works closely with lithium-ion cell producers to develop high-performance custom battery components for cylindrical and prismatic cell formats.
