

Solar glass second quarter expectations

Overview

Although the stock prices of the covered solar glass companies have risen since April, reflecting market hopes for supply contraction and price increases under anti-internal competition policies, the bank believes that the industry's downward pressure on profits will deepen further in the second half of this year and into next year. How big is the solar glass market by 2032?

Based on our research, the global solar glass market is projected to touch USD 21.27 billion by 2032. What CAGR is the solar glass market expected to exhibit by 2032?

What is the global solar glass market size?

Solar Glass Market size is expected to reach nearly US\$ 146.11 Bn. by 2029 with the CAGR of 29.3% during the forecast period. Increasing demand for clean energy, due to growing awareness regarding global warming is in turn, increasing the demand for photovoltaic glass, thereby boosting growth of the market.

Why is the solar PV glass market growing?

Government rules that are favorable to the development of solar PV plants is one of the factors driving the growth of the solar PV glass market. Additionally, the market for solar PV glass is growing due to the surge in demand for solar systems on a residential, commercial, and utility scale.

Which region holds the most solar glass market share in 2020?

The Asia Pacific region held almost half of the solar glass market share in 2020. This can be attributed to the existence of leading firms like EMMVEE Toughened Glass Private Limited, Sisecam Group, Euroglas GmbH, Hecker Glastechnik GmbH & Co. KG, and so on.
