

Solar power with grid backup in Hungary

Overview

How much solar energy does Hungary produce?

Data from transmission system operator MAVIR shows that solar energy production in Hungary reached a new peak on June 13, producing enough energy to serve the country's domestic electricity requirements entirely from renewables. Hungary has deployed almost 8 GW of solar capacity, according to the country's deputy minister of energy, Gábor Czepek.

How has Hungarian solar energy changed over the years?

The residential solar capacity grew from 2.3 GW at the end of 2024 to 2.4 GW by March 2025. This growth was facilitated by the removal of restrictions on new grid connections for residential solar systems. The Hungarian government has been actively working to promote solar energy through various regulatory changes.

What are Hungarian goals for solar energy?

The Hungarian government has set ambitious goals for the expansion of solar energy in the coming years. By 2030, the country's total capacity is expected to rise to 12 GW, doubling the current capacity. This target is an important step towards achieving the country's climate goals while diversifying the energy market.

How big is Hungary's solar capacity in 2025?

By the second quarter of 2025, Hungary's solar capacity is projected to exceed 8 GW. This remarkable growth is driven by extensive large-scale solar projects and the easing of restrictions on residential solar installations, as reported by the Hungarian Energy and Public Utility Regulatory Authority (MEKH).

Solar power with grid backup in Hungary

[Hungary on grid solar system cost](#)

It takes the country's total solar capacity to more than 5.6 GW. Preliminary figures from transmission system manager MAVIR states Hungary's total solar capacity equate to 3.3 GW ...

[GoldenPeaks Capital connects two major ...](#)

4 days ago · GoldenPeaks Capital connects two large-scale solar power plants to the Hungarian grid, increasing independent supply on the ...

[Hungary's solar capacity nears 8 GW - pv ...](#)

Jun 19, 2025 · Hungary has deployed almost 8 GW of solar capacity, according to the country's deputy minister of energy, Gábor Czepek. In a ...

Current status of solar capacity in Hungary: solar systems for

Dec 21, 2024 · ? Hungary's growth in solar energy explored: Increasing importance of solar power. Private solar systems analyzed: How households rely on independence. Industry ...

[Hungary's Solar Energy Landscape in 2024: A Year of ...](#)

Jun 13, 2025 · Hungary added 1.41 GW of solar capacity in 2024, slightly down from 2023's record. Explore key trends, challenges, and future projections for Hungary's solar energy ...

[How Hungary became the world's solar ...](#)

May 13, 2025 · The backstory: Hungary has above-average solar potential, with average solar radiation of 1,280kWh/m². Authorities have harnessed ...

[Current status of solar capacity in Hungary: ...](#)

Dec 21, 2024 · ? Hungary's growth in solar energy explored: Increasing importance of solar power. Private solar systems analyzed: ...

[Solar overtakes gas to become Hungary's second-largest ...](#)

Aug 31, 2025 · A decade ago, solar power was almost non-existent in Hungary. It generated just 0.2% of the country's electricity. Nuclear, coal, and gas dominated the grid.

[Hungary Leads Europe in Photovoltaic Power Generation...](#)

Feb 5, 2025 · The latest goal set in Hungary's national energy and climate plan is to achieve a photovoltaic installed capacity target of 12GW by the beginning of 2030. At the same time, ...

GoldenPeaks Capital connects two major solar power plants ...

4 days ago · GoldenPeaks Capital connects two large-scale solar power plants to the Hungarian grid, increasing independent supply on the electricity market.

[How Hungary became the world's solar energy leader](#)

May 13, 2025 · The backstory: Hungary has above-average solar potential, with average solar radiation of 1,280kWh/m². Authorities have harnessed this opportunity through a feed-in tariff ...

[Hungary's solar capacity nears 8 GW - pv magazine ...](#)

Jun 19, 2025 · Hungary has deployed almost 8 GW of solar capacity, according to the country's deputy minister of energy, Gábor Czepek. In a social media post, Czepek said that more than ...

[Hungary's Solar Boom: On Track to Surpass 8 ...](#)

Jul 18, 2025 · Hungary's solar capacity is projected to exceed 8 GW by 2025, fueled by major projects and residential solar panel growth. Learn about ...

[Solar overtakes gas to become Hungary's ...](#)

Aug 31, 2025 · A decade ago, solar power was almost non-existent in Hungary. It generated just 0.2% of the country's electricity. Nuclear, coal, ...

[Hungary's Solar Boom: On Track to Surpass 8 GW in 2025](#)

Jul 18, 2025 · Hungary's solar capacity is projected to exceed 8 GW by 2025, fueled by major projects and residential solar panel growth. Learn about the policies driving this boom.

[Doubling Hungarian PV Market Capacity by 2030: What Will ...](#)

May 24, 2024 · In 2023, 1.6 GW of new solar PV capacity was added to the Hungarian power grid, which - by year's end - hosted over 5.6 GW of solar systems in total. As the market has by ...
