

Solar tile installation in London

Overview

Are solar roof tiles available in the UK?

Solar roof tiles are available in the UK but not every solar panel company offers them as part of their services. If you're looking to install these innovative tiles, you'll need to work with specialised installers: With SolarTyle, you can expect a seamless blend of energy efficiency and architectural elegance.

How much do solar roof tiles cost?

According to Checkatrade, for a 4kW system, solar roof tiles could cost between £12,000 and £16,000. Keep in mind that solar roof tiles are generally more expensive than traditional solar panels, often costing twice as much. However, it's important to consider that you're not just paying for energy generation but also for a new roof.

What are solar tiles?

Solar tiles, sometimes also referred to as solar slates or solar roof slates, are the ideal choice for those who want a roof and solar power option rolled into one because they are roof tiles that are solar panels. They offer an elegant solution to the bulkier traditional solar panels that are installed on an existing roof.

Should I install solar roof tiles?

Less efficient - Compared to traditional solar panels, solar roof tiles generally produce less energy, meaning you may need more tiles to meet your energy needs. ✘ Require roof replacement - If your roof is in good condition, installing solar roof tiles may not be practical, as they replace your existing roofing material.
