

Solar wireless no internet no electricity outdoor on-site energy

Overview

Does a 4G solar security camera need wifi?

No WiFi Network Needed One of the greatest things about the 4G solar security camera is that it is independent from WiFi network, and still, it transmits videos wirelessly with no wire at all. So the 4G solar security camera is ideal to use as long as the area has good 3G and 4G coverage, no matter how remotely your property is located.

Are 4G solar security cameras good for off-grid location monitoring?

Now 4G solar security cameras come as a tailor-made handy solution for you. Widely used in the remote cabin, construction sites, boats, barns, the second home, and etc., the 4G solar security camera is a popular choice for off-grid location monitoring.

How to use 4G solar security camera?

To use the 4G solar security camera, you need to get a SIM card and open a data plan for it first. Usually the 4G solar security camera comes with an SIM card slot and you need to purchase the card separately.
