

St Lucia Uninterruptible Power Supply

Overview

What type of power plug is used in Saint Lucia?

In Saint Lucia, power plugs and sockets (outlets) of type G are used. The standard voltage is 240 V at a frequency of 50 Hz. For more information, select the country you live in at the top of this page. We don't sell power plug adapters. We refer you to Amazon, where you will find a great selection of travel adapters.

Do you need a power adapter in Saint Lucia?

As a general rule, most hotels do provide its guests will adapters and transformers, but, for the sake of a few dollars or euros, it is probably more beneficial to be prepared and bring your own. Saint Lucia's electricity service means that travellers that do need adapters will need to invest in either WA-7 or #5 adapters.

How does an uninterruptible power supply work?

The uninterruptible power supplies have e.g. an adjustable maximum buffer time to protect the battery and the unit protects the battery from going into a deep discharge. Draining the battery all the way down can damage it in a very short period of time, especially if this occurs multiple times.

What is a continuous power supply (UPS)?

UPS is the short version of "uninterruptible power supply". In many applications a continuous power supply is important because power fluctuations and outages can cause damage to control equipment as well as unexpected down time. This situation can lead to a loss of productivity and revenue.
