

Syria Mobile Outdoor Power Plant

Overview

How many power plants are in Syria?

Syrian Arab Republic has 18 utility-scale power plants in operation, with a total capacity of 7966.0 MW. This data is a derivative set of data gathered by source mentioned below. Global Energy Observatory/Google/KTH Royal Institute of Technology in Stockholm/Enipedia/World Resources Institute/database.earth.

What will Syria's new energy deal mean for the world?

The agreement encompasses the construction of four combined-cycle gas turbine power plants with a combined capacity of 4GW, and a 1GW solar power plant in southern Syria. The initiative will play a pivotal role in revitalising the nation's energy infrastructure, which has been significantly damaged by more than a decade of conflict.

How has the war impacted Syria's electricity sector?

Stay proactive with real-time data and expert analysis. Syria's electricity sector has been severely impacted by the war, with current generation at 1.6GW - a stark decrease from its pre-war capacity of 9.5GW.
