

Tanzania portable energy storage field

Overview

What is the energy sector like in Tanzania?

The Energy sector in Tanzania began decades ago, laying a foundation for what has now become a robust and transformative sector.

Does Tanzania have electricity?

Tanzania continues to make significant progress in connecting citizens to electricity. Overall electricity access in mainland Tanzania has increased from 14 percent in 2011 to 78.4 percent in 2020, as the country has expanded the power grid to reach 100 percent coverage of all 12,318 villages.

How many MW does Tanzania have?

Starting with Hydro power Plant producing just 21 MW in 1967 and expanding to significant projects including Julius Nyerere Hydropower Project producing 2,115 MW to reach total installed capacity of 3,404.20MW as at January, 2025. Tanzania continues to make significant progress in connecting citizens to electricity.

How does aging infrastructure affect food supply in Zanzibar & Tanzania?

Over 89 percent of households in mainland Tanzania still rely on traditional fuels and technologies for cooking, while in Zanzibar, the figure exceeds 84 percent. Aging infrastructure further compounds the problem of reliability and quality of supply.
