

Tashkent solar Power Station with Energy Storage Company

Overview

Will China build a solar power plant in Tashkent?

TASHKENT. Oct 15 (Interfax) - Projects for building a solar power plant and energy storage systems involving Chinese companies have been launched in the Tashkent region of Uzbekistan. A solar power plant valued at \$240 million will be built together with China Datang in the Boka district, the presidential press service said.

Where is PV plant located in Tashkent?

The PV plant site is located along the 4R-12 district highway, which links feeder roads within the districts of Yukorichirchik, Parkent and Kibray to the ring road along the outskirts of Tashkent City. The single carriageway is paved and in good condition.

What is Uzbekistan's First Energy Storage Project?

Installed with Sungrow's cutting-edge liquid-cooled ESS PowerTitan 2.0, this facility marks Uzbekistan's first energy storage project and stands as the largest of its kind in Central Asia. The project will play a pivotal role in driving the region's energy transition forward and setting a sustainable precedent.

Why is Uzbekistan launching a more market-oriented electricity sector?

In addition, Uzbekistan heads to establish a more market-oriented electricity sector, with a new electricity legislation enacted last July. The introduction of energy storage projects provides greater supply security and helps mitigate the intermittency of renewable generation.
