

The largest number of battery cabinets in Brussels

Overview

With 84 battery enclosures and a capacity of 100MWh, it will be the one of the largest ever battery park connected to the Belgian high-voltage network. Where is the largest battery storage project in Belgium?

Eneco has launched Belgium's largest battery storage project in Ville-sur-Haine, Wallonia, near Mons and about 20 kilometers from the French border. The facility features a storage capacity of 200 MWh and a power output of 50 MW, capable of supplying electricity to the high-voltage grid for up to four hours.

Where is Europe's largest battery energy storage system located?

Engie and Sungrow have commissioned the first 400 MWh phase of mainland Europe's largest battery energy storage system in Vilvoorde, Belgium, with full capacity due by end-2025.

Is Belgium a good place to invest in battery storage?

Belgium is one of the most active and mature grid-scale energy storage markets in Europe, with diversified opportunities for monetising battery storage via flexibility markets and a supportive regulatory regime.

Why is battery storage important for Belgium's energy transition?

Upon completion of the second 400MWh phase by the end of 2025, the entire installation will be providing clean, stable power for about 96,000 homes and helping stabilize Belgium's power grid. Battery storage is one of the most vital, yet too often overlooked, pieces of the energy transition jigsaw," said Moritz Rolf, Sungrow Europe Vice President.
