

# The latest East African new energy storage policy

## Overview

---

Are energy storage boom times extending to Africa?

Boom times for energy storage have extended to the continent of Africa, with a 10-fold increase in installed storage supporting grids and renewable energy penetration.

What is Africa's Energy Transition Strategy?

THE AFRICAN ENERGY TRANSITION STRATEGY AND ACTION PLAN 22

Renewable energy contribution to electricity supply in Africa is expected to increase from the current levels of about 31% of the electricity generation mix to about 75% under the integration scenarios, and 60% under the Baseline.

Does Scatec have a solar-plus-storage site in South Africa?

Scatec's Kenhardt solar-plus-storage site in South Africa (above), which went online at the end of 2023. Image: Scatec. Africa's energy storage market has seen a boom since 2017, having risen from just 31MWh to 1,600MWh in 2024, according to trade body AFSIA Solar's latest report.

Why is Africa important for the energy transition?

- Leveraging Africa's critical mineral resources for the energy transition. The continent holds a significant share of the world's critical minerals essential for renewable energy technologies and storage solutions.
