

UPS portable energy storage life in New York USA

Overview

Where will a battery energy storage system be built in New York?

The New York State Public Service Commission (PSC) gave its approval earlier this month for the battery energy storage system (BESS) to be built in Brookhaven, a town in New York's Suffolk County by Holtsville Energy Storage.

How many energy storage systems are there in New York City?

Con Edison has said it is working to promote the efficient operation of 1,000 MW of energy storage in the New York metropolitan region by 2030. The company reported there were 493 customer-owned BESSs installed in New York City and Westchester, a county north of the city, as of March 2023. The total capacity of those systems was about 25 MW.

Is 2025 a good year for energy storage in New York State?

2025 is sure to be another exciting year for energy storage in New York State as NY-BEST celebrates our fifteenth year as an organization.

When will NY-best's electrical storage program launch?

NY-BEST anticipates the Residential and Retail programs to launch in Q1 of 2025 and the Bulk program to launch in Q2 of 2025. The New York City Department of Buildings (DOB) recently released their Proposed Rules Governing the Installation of Electrical Storage Systems for public comment.
