

Uninterrupted power supply for Paramaribo 5G solar container communication station

Overview

What is 5G power & iEnergy?

Fully meet the requirements of rapid 5G deployment, smooth evolution, efficient energy saving, and intelligent O&M. Including: 5G power, hybrid power and iEnergy network energy management solution. 5G power: 5G power one-cabinet site and All-Pad site simplify base station infrastructure construction.

Which power supply mode is used for micro base station?

For the micro base station, all-Pad power supply mode is used, featuring full high efficiency, full self-cooling and smooth upgrade for rapid deployment and site construction & operation costs reduction.

What is a smart power supply?

For small- and medium-sized enterprises, branches of large enterprises, AC power supplies for control systems and precision instruments, etc. Explore Smart Power Supply solutions, featuring Uninterruptible Power Supply (UPS) systems, modular UPS, integrated UPS, and backup power for data centers, ensuring seamless and reliable power continuity.

How can smart power supply synergy improve power supply efficiency?

Smart synergy between the power supply and main devices can improve power supply efficiency and reduce energy consumption. Smart lithium battery and existing lead-acid battery can be used in parallel directly to protect
