

Uninterruptible power supply UPS can be used outdoors

Overview

What is an outdoor UPS system?

Outdoor UPS systems are rugged back-up power supplies that are designed to support Access Control, Security, Public Utility and Telecommunications applications, most of which are in harsh outdoor locations.

Why should you choose an outdoor UPS system?

High Reliability: Our outdoor UPS systems offer high reliability and long-lasting performance with advanced technology and superior components, ensuring continuous power availability when you need it most.

What products are included in a power supply system?

This includes hardened outdoor enclosures, uninterruptible power supply (UPS) modules, specialty batteries, accessories and generators that can be custom integrated to meet your application.

What is an outdoor UPS enclosure?

Our outdoor UPS enclosures are engineered to withstand harsh weather conditions, ensuring uninterrupted power supply for your outdoor equipment and applications. Weatherproof Enclosures: Our UPS units are housed in rugged, weatherproof enclosures designed to withstand extreme temperatures, moisture, and other outdoor elements.
