

Uzbekistan 5g base station query

Overview

Does Uzbek Telecom have a 5G network?

State-owned telco Uzbektelecom, which operates as Uztelecom, announced on Thursday that it has launched its non-standalone (NSA) 5G network in all regional centres of Uzbekistan, and has teased plans to move ahead with 5G-Advanced technology soon.

How many 5G base stations has Uztelecom commissioned?

Under that project, Uztelecom says it has modernized and commissioned over 3,500 base stations to date. The telco launched a 5G trial in April 2023 in the capital city of Tashkent that utilised over 60 5G base stations.

How many base stations will be modernized in Uzbekistan?

As part of the project, more than 3,000 existing base stations across Uzbekistan will be modernized using the latest technologies, and more than 2,000 new base stations will be built and put into operation. The process of upgrading base stations to the 5G standard is an important stage of the project.

Does Ucell have a 5G network in Uzbekistan?

As of late 2021, Ucell has been servicing 7+ million subscribers with its 4G networks covering nearly 75% of the country's major cities and towns. The company was the first to roll out a 5G network in Uzbekistan in the central business district of the capital city Tashkent on 8 April 2021.
