

# Victoria Solar Container 5MW

## Overview

---

How many solar panels are there in Victoria?

Seeded as an idea in 2008, 6.2 hectares of land were leased from a local farmer where the 4,320 solar panels and BESS are installed, representing the first energised community driven renewable energy project in Victoria.

Who is responsible for solar energy development in Victoria?

Supporting development of well sited, well designed solar energy generation facilities in Victoria. The Minister for Planning is the responsible authority for new planning permit applications of all energy generation facilities that are 1 megawatt or greater.

Why is billion watts advancing solar-storage projects in Australia?

Growing Pipeline in Australia Billion Watts is advancing six additional solar-storage projects in Victoria and New South Wales. The sub-5MW segment is particularly attractive as such projects connect at the distribution level, benefit from simplified approvals, shorter construction timelines, and faster grid connections.

How many solar farms are there in Victoria?

There are 50 solar farms across Victoria that are fully operational, under construction or at commissioning stage and the government is delivering 100 neighbourhood batteries across the state through the 100 Neighbourhood Batteries program.
