

Victoria solar container battery Order

Overview

Who installs solar batteries in Victoria?

Solar storage batteries must be installed by A Grade electricians with a CEC endorsement for solar batteries. Safety is the responsibility of the installer and the manufacturer. Newly installed batteries must also be signed off by a Licensed Electrical Inspector. Solar Victoria's safety inspection program will include battery installations.

Are solar batteries aggregation & VPP ready?

The Victorian Distribution Code regulates the distribution and connection of electricity to customers, and safety of community is a key priority. All batteries on Solar Victoria's products list are aggregation and VPP ready and comply to Australian Energy Market Operator's (AEMO) minimum specifications.

Is the iStore battery approved for solar Victoria & SAPN?

In exciting news, the iStore battery has recently received approval for both the Solar Victoria (SolarVIC) program and the South Australian Power Networks (SAPN) list. Let's delve into the details and explore why this development matters.

What is the solar Victoria program?

The Solar Victoria program aims to promote solar energy adoption across the state of Victoria, Australia. As part of this initiative, approved inverters and batteries must meet stringent quality and safety standards. The iStore battery has successfully met these requirements, making it eligible for SolarVIC rebates and incentives.
