

# **Vientiane solar container communication station wind power construction project**

## Overview

---

What is the first wind project in Laos?

The 600 MW Monsoon wind project, the first wind energy project in Laos and the largest wind farm in ASEAN has completed construction.

Who owns a 600 MW wind farm in Laos?

The 600 MW wind farm with 133 turbines was under ACEN with a 24% stake. Other partners include Mitsubishi Corp and SMP Construction among others. Type: Onshore Location: Sekong and Attapeu provinces, Laos Developer: Monsoon Wind Power Company Contractors: ACEN, PowerChina.

Why is Laos building a wind farm?

Termed as Laos' "untapped wind resources", the largest wind farm in ASEAN will well utilize the renewable energy source, and undeniably boost the country's economy. The decision to construct the wind farm also seems to be of the idea behind the maximization of natural resources utilization. Laos also generates hydropower.

What is monsoon wind project?

Monsoon wind project, the first wind energy project in Laos and the largest wind farm in ASEAN (International organisation of Southeast Asian countries) has completed construction. The 600 MW wind farm with 133 turbines was under ACEN with a 24% stake. Other partners include Mitsubishi Corp and SMP Construction among others. Type: Onshore
