

Vietnam Mobile Energy Storage Container

Overview

Did Marubeni launch a megawatt-scale battery storage demonstration project in Vietnam?

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate Marubeni has brought online a megawatt-scale battery storage demonstration project in Vietnam.

Who owns Marubeni green power Vietnam?

Marubeni Green Power Vietnam, a wholly owned subsidiary of Marubeni—one of Japan's largest general trading 'sōgō shōsha' companies—partnered with Vietnamese counterpart VinGroup for the 1.8MW/3.7MWh lithium-ion (Li-ion) battery energy storage system (BESS) project.

How much power will Vietnam have by 2030?

The plan also called for 300MW of battery storage deployment and 2,400MW of pumped hydro energy storage (PHES) by 2030. State-owned public power company Vietnam Electricity (VE), is participating in a 50MW/50MWh grid-scale BESS pilot project which marks a first step towards that BESS goal.

What is a Marubeni-Vingroup energy storage project?

The project follows a May 2023 Memorandum of Understanding (MoU) between Marubeni and VinGroup's energy storage arm, announced just a few days after Vietnam's government approved a Master Plan to reform the country's energy sector.
