

# **Warsaw Energy Storage Power Station**

## Overview

---

Why do we need energy storage facilities in Warsaw?

In summary, the construction of energy storage facilities in Warsaw is a significant step towards enhancing the city's energy infrastructure, supporting the integration of RES, and ensuring a stable and secure power supply for its residents. This article was prepared by Institute of Fluid-Flow Machinery Polish Academy of Sciences.

Will Warsaw benefit from the construction of ten electricity storage facilities?

Warsaw is going to benefit from the construction of ten electricity storage facilities, thanks to a funding boost of over PLN 12 million from the National Fund for Environmental Protection and Water Management (NFOŚiGW).

How much energy will a Silesian industrial zone power?

The government's draft Energy Policy 2040 calls for 6 GW of installed storage capacity – enough to power 4 million homes for 4 hours . Emerging technologies like zinc-air batteries and compressed air storage are being tested in Silesian industrial zones.

Could Poland be Central Europe's battery technology hub?

As Tauron Group's recent €150 million storage tender shows, Poland isn't just catching up – it's positioning itself as Central Europe's battery technology hub. The race is on to develop storage solutions that work as hard as Polish coal miners once did, but with cleaner hands and smarter software.
