

Overview

Are off-grid solar systems a good option in New Zealand?

This proven technology offers long-term savings and energy independence, making it a great option for off-grid or hybrid systems in New Zealand. Take control with custom off-grid solar solutions. Power Options designs and installs systems tailored to your needs, for complete energy independence.

Who is off grid solar?

Off Grid Solar is a company that has been established by solar professionals who have been working building and installing Off Grid Solar Energy Systems in New Zealand for more than a decade. We specialise in battery supported solar energy systems both grid connected (ESS) and Stand Alone Off Grid Solar Energy Plants.

Why should you choose a solar installer in Wellington?

Switching to solar power is a smart choice for Wellington residents, and choosing the best solar installers in Wellington ensures a high-efficiency, reliable system. With Wellington's moderate sunshine—averaging around 2,000 hours annually—solar energy offers significant savings and environmental benefits, even in the city's variable climate.

Do solar panels work in Wellington?

Wellington receives approximately 2,000 sunshine hours per year, which is suitable for effective solar energy production. Modern solar panels are efficient enough to generate significant power even during overcast days, making solar viable across the region. Do I need council consent to install solar panels in Wellington?
