

# What are the hydrogen energy solar sites in San Diego

## Overview

---

Does SDG&E have a hydrogen fueling station?

Additionally, SDG&E will install its first hydrogen fueling station to support the first fuel cell vehicles in its fleet. Energy Storage: Currently, SDG&E owns and operates 13 energy storage projects, totaling about 45 MW of energy storage.

Can California pioneer a clean hydrogen economy?

“Because of California’s abundant solar energy resource and strong history of clean energy innovation, we are well-positioned to pioneer a clean hydrogen economy,” said state Senator Ben Hueso, who represents the San Diego and Imperial County areas.

Will California create a hydrogen hub?

California announced its intention earlier this year to leverage federal and state dollars to create a renewable hydrogen hub and accelerate hydrogen market development. Governments in Asia and Europe have also launched ambitious hydrogen initiatives.

What is the Borrego Springs Green Hydrogen Project?

The Borrego Springs Green Hydrogen Project will demonstrate hydrogen’s use as long-duration energy storage; a microgrid asset; and a resource for dispatch by the California Independent System Operator (CAISO) to support grid reliability.
