

What are the outdoor power supplies in Algeria

Overview

What type of power plug do you need in Algeria?

In Algeria the power plug sockets are of type C and F. The standard voltage is 230 V and the frequency is 50 Hz. Power plug adapter needed in Algeria?

In Algeria the power plug sockets are of type C and F. Check out the following pictures. When living in the United States of America you need a power plug adapter for sockets type C and F.

Which plug sockets can be used in Algeria?

Type C and type E plugs can also be used thanks to their compatibility with type F sockets. Typically, type C plug sockets are not allowed to be installed in Algeria: these outlets are not earthed and are therefore considered dangerous. Only type F power points are permitted because they are grounded and therefore significantly safer.

How much electricity does Algeria consume?

Algeria's electricity consumption has been on the rise. From the years 2010 to 2013, it rose by 22%. Currently, the consumption increases at around 5-6% per annum. It is estimated that the country enjoys near to 100% access to electricity (compared to 57% in 1977).

What is the voltage in Algeria?

Just like in most parts of the world, the voltage in Algeria is 230 volts and the frequency is 50 Hz. Algeria is one of the very few former French colonies that did not adopt the type E standard that is used by France. Instead, it has standardized on type F sockets and plugs.
